# iDea Shielded A/V Cable for iPod™

## **iDea Shielded A/V Cable for iPod™**

### **Less Noise, Pure Music.**

- The iDea A/V cable is designed for use with the iPod photo/video and the iPod Universal Dock.
- Enhances Audio and/or Video Fidelity when connected to a Stereo or TV set.
- The iDea A/V Cable employs extra shielding to reduce EMI (Electromagnetic Interference).

# Package Contents / Parts Identification

## Package Contents:

- AV Cable

## Parts Identification:

- iPod-in
- Composite Video
- Audio-L
- Audio-R

# Getting Started / Features

## Getting Started:

- Link the A/V Cable to your iPod or iPod Dock. Do not turn on the iPod until you have the A/V cable connected.
- Turn on the iPod and enable the **"TV Out"** settings from the MENU (Video-> Video Settings-> TV-Out) on your iPod (Supported A/V models: iPod Photo and iPod Video).
- You may either link the iDea A/V Cable to the iPod directly, or through the iPod Dock (iPod "Dock for iPod Photo", or iPod "Universal Dock") A/V port. Make sure you hook the A/V cable to the iPod or Dock connectors gently but firmly.

## Features:

- The iDea™ Shielded A/V Cable provides composite video (yellow jack) and audio (red -R and white -L jacks) output for viewing photo slideshows with music on a TV. Compatible with iPod with color displays.
- This cable is tailor made for iPods with color displays (iPod Photo and iPod Video/5G).
- EAN Code: 4711671021701

Note: Video (Yellow) and Audio (Red and White) colors .

# Specifications / Troubleshooting

## Specifications:

- Shielded A/V Cable length: 6-feet (1.50 Meter).
- Yellow colored jack for the Video port, red and white colored jacks for the stereo Sound channels.

## Troubleshooting:

- **No Sound or Video:** (1) Check if the A/V Cable is properly connected, (2) Check the iPod Setting, be sure to turn "ON" the Video/Sound output (TV-Out) option, and (3) that the Power On/ Off and "Hold" switches are in their right positions.
