# iDea TV-OUT Kit for iPod™ and Dock

## iDea TV-OUT Kit for iPod™ and Dock

### **Less Noise, Pure Music and Video.**

- The iDea TV-OUT Kit is designed for the Apple iPod Universal Dock to maximize the A/V quality.
- In comparison with the standard iPod A/V cable, the iDea TV-OUT Kit provides much better visual effect (S-Video equipped) on your Big Screen TV.
- The iDea TV-OUT kit employs cables with extra shielding to reduce EMI (Electromagnetic Interference).

### **Package Contents:**

- A/V Cable
- S-Video Cable

# Parts Identification

## Part Identification:

- iPod-in
- S/Video-in
- S/Video-out

**This shielded cable is tailor made for iPod with color display (iPod Photo and iPod Video/5G).**

(1) S/Video-in (2) S/Video-out (3) Composite Video  
(4) Audio-L (5) Audio-R (6) iPod-in

# Getting Started / Features

## Getting Started:

- Link the TV-OUT Kit cables to your iPod Dock. Do **NOT** turn on the iPod until you have the A/V cable connected.
- Turn on the iPod and enable the **"TV Out"** settings from the MENU (Video-> Video Settings-> TV-Out) on your iPod (Supported A/V models: iPod Photo and iPod 5G).
- You may link the iDea TV-OUT Kit's A/V cable to the iPod Dock ("iPod Photo Dock", or "Universal Dock") A/V port or S-Video port. We recommend S-Video for users with TVs that support it.

## Features:

- The iDea™ TV-OUT Kit provides S-Video (black jack), Composite video (yellow jack) and audio (red and white jacks) outputs for viewing photo slideshows with music and video Podcast on a TV; Compatible with "iPods that have color displays".
- This shielded cable is tailor made for iPod with color displays (iPod Photo and iPod Video/5G).
- **EAN Code: 4711671021633**

The iPod Universal Dock and iDea TV-OUT Kit connection.

Note: Video (Yellow) and S-Video (Black).

# Specifications / Troubleshooting

## Specifications:

- Shielded A/V Cable and S-Video Cable length: 6-feet (1.50 Meter).
- Yellow colored jack for the Composite Video port, Black colored jack for the S-Video port; Red (Right channel) and White (Left channel) colored jacks for the stereo sound channels.

## Troubleshooting:

- **No Sound or Video:** (1) Check if the TV-OUT Kit cables are rightly connected, (2) Check the iPod Setting, be sure to turn **"ON"** the Video/Sound output (TV-Out) option, and (3) that the Power On/ Off and "Hold" switches are in their right positions.
